

TechLaw Solutions Announces Immediate Availability of Relativity

Washington DC, and Chicago, IL – October 6, 2009 – TechLaw Solutions, Inc., a leading electronic discovery consulting and services provider announced today that they partnered with kCura Corporation, developers of the document review, analysis and production platform Relativity, to become a Premium Hosting Partner, and are now offering Relativity to all of their clients.

“As part of our consultative approach to addressing our clients’ e-Discovery needs, we have added Relativity as another option for hosted data review,” said Mel Goldenberg, President of TechLaw Solutions, Inc. “Each case requires different options, and one solution can not fit every case. Adding Relativity will further allow our team to assess client needs and provide the best option to help achieve their goals.”

“We are excited to welcome TechLaw Solutions as a Premium Hosting Partner,” said Andrew Sieja, President and CEO of kCura Corporation. “TechLaw has an experienced and professional team supporting Relativity, and we look forward to working with them to deliver great solutions to their clients.”

Relativity is a complete review solution with the power to handle the largest and most complex projects. TechLaw Solutions is hosting Relativity at its Tier 3 Data Hosting Center, featuring full replication, multiple power backups, and redundant network connectivity. As a feature-rich online review application, Relativity provides image and native file review, powerful searching, diverse coding options, flexible workflow capabilities, integrated productions, Unicode and foreign language support, concept searching and clustering: all delivered in a highly scalable, enterprise-grade solution.

###

About TechLaw Solutions

TechLaw Solutions’ uses a consultative approach to help corporations and law firms effectively address litigation preparedness, manage costs, mitigate client risk and provide a competitive advantage in the e-Discovery process. TechLaw Solutions has one of the longest track records in litigation support, working on complex and critical matters since 1983. About kCura

kCura Corporation is a Chicago-based software company that has been building enterprise-level, web-based applications for the consulting services, financial services, and legal industry since 2001. kCura's flagship product, Relativity, is a tool for the analysis, review, and production of electronically stored information during the discovery phase of litigation. Beyond discovery, Relativity provides powerful options for managing other types of structured data that get tracked in investigations, litigation hold scenarios, the management of large contract reviews, etc. As the industry's most flexible review platform, Relativity is well-suited to help law firms and corporations reduce the risks and control the costs associated with e-discovery. Through the creation of custom and automated workflows and validation logic, Relativity ensures work product is repeatable, defensible, and easily audited.
